TO WHOM IT MAY CONCERN

KATIE WORTHINGTON

Katie Worthington has been employed by this company as a stonemason and carver since October 1999.

She is currently engaged in the carving of crockets and finials on the restoration of St Andrew's Cathedral, Sydney.

She has proved herself to be a competent banker mason and a very capable carver.

We regret that she will not be spending a longer time in Sydney and we have no hesitation in recommending her to any prospective employer.

Jasper Swann

Director
