

ENGLISH HERITAGE

LONDON REGION

Dear Sir/Madame,

I can confirm that Katie Worthington worked at Wellington Arch as an architectural stone carver/mason from 6th June 2000 – 21st Nov 2000.

Her work is on display not only on the actual fabric of the building itself, but it also forms part of the exhibition. She features on a video which has been running here since 2001. A photograph of Katie at work is also shown in another part of the exhibition. We use a slide of Katie carving as part of our lectures which are given to members of the public on a weekly basis. This is certainly in recognition of her abilities within the industry which clearly stands in a class of its own.

Yours sincerely,

Corinna Mutimer
Visitor Operations Manager
